wherein the transmission threshold assigned to a logical entity within a priority level is determined by considering: the maximum allowable delay for that priority level; data speed of the shared out-going uplink; the logical entity's service level agreement; and the total number of logical entities within that priority level, in combination with other limitations as recited in claims 1, 15, & 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
